"My children and I read this story and really enjoyed it. They loved when Lady did her tricks for the people and they liked the way that dogs could help people feel better. After we finished this book, they wanted to read it again. You should get a copy of *One Incredible Dog! Lady*, gather your children around and enjoy an informative and entertaining read."

"This [book] is a significant addition, especially for the student who may like to write a report on training animals, on the jobs that working animals do, and on animals and people....A charming addition to any child's personal library or to a public or school library."

Christina Lewis

Reviews

"Simply written and beautifully illustrated, this short story will bring a tear or two to readers' eyes, along with feelings of bliss and happiness. This one hits close to the heart...This reviewer would recommend a copy of this book be placed in any pediatric or oncology ward for reading pleasure by both parents and little patients. Hats off to Mr. Williams and Ms. Friedman for spreading a little joy and lots of smiles where such is desperately needed."
